

DELTA

All-Terrain Buggy

DELTA All-Terrain Buggy

Delichon's Delta is a rugged yet lightweight three-wheel buggy offering outstanding off-road capabilities, making woodland walks and country paths readily accessible.

Short wheelbase alloy frame and low centre of gravity give exceptional rough terrain manoeuvrability.

*Designed and manufactured
in the United Kingdom*

Delichon's customary attention to detail has created an exceptional all-terrain buggy boasting a wealth of safety and comfort features for carer and occupant alike:

- short wheelbase alloy frame with low centre of gravity
- rugged, rigid and durable
- adjustable multi-position handle
- mountain-bike style brake levers
- dual rear drum brakes
- performance fabric seating
- mesh seat back insert
- easily removable footplate

Available in four sizes, the smallest Delta is suitable for children up to 112cm high, the largest for occupants up to 180cm high.

Delta buggies	Small	Medium	Intermediate	Large
Seat depth:	30cm	32cm	34cm	38cm
Backrest height:	72cm	76cm	82cm	88cm
Seat width:	30cm	32cm	34cm	38cm
Maximum occupant height:	112cm	150cm	160cm	180cm

**Delichon's clinical
assessment service and
range of Performance
Seating Systems make it
one of the UK's top providers
of customised seating for
clients with special needs.**

*Many thanks to Jessica and her
family for helping us out with our
photography.*
